

We believe that every company has an obligation to provide more than just a product or a service to create value -- it should also serve a higher purpose. Snappy Salads is a commitment to a healthier lifestyle. Healthier for our guests, healthier for our team, and healthier for our planet. It's our goal to leave this world better than the way we found it.

We want to do everything we can to achieve this expansive goal. We believe that if we educate, activate, and participate in the conversation, soon the positive effects will help make this world a healthier place to live.

Our paper straws are a good example. They are a very tangible example of how a small change can create dialogue around a seemingly inane item that has a huge impact on our environment.

If you don't care, that's cool too. We'll still show up each day to serve you the highest quality salad you request as fast and efficiently as we can.

Chris @snappysalads.com

All of our bowls, utensils, plates and cups are made from materials that are environmentally friendly.

IT SPEAKS FOR ITSELF:

"We had never had Snappy Salads before so you truly left a great impression. We look forward to using your services in the future for our events!"
- Brooke

"So many people in our office loved it and we can't wait to work with you again!" - Taylor

"I just wanted to let you know that everything was wonderful!" - Misty H.

They loved it! The only thing that was left over was the tea...nothing else. So it was a huge success!
Thanks for the follow up! - Jennifer
